There were a few good chunks in the offerings, but many of the arrivals lacked quality, and probably none were equal to a few loads here last week. The attendance of buyers was ernoon. In the forenoon, however, about 100 head changed owners at private sale, and they were probably to fill cavalry orders. Prices ranged from \$65 to \$90. In the auction there was no urgent competition between buyers, and it was rather difficult to negotiate sales at barely steady prices compared with a week ago, and a good many dealers quoted a lower market. Horses weighing around 1,400 lbs and 1,500 lbs that were \$115, and a better class of the same weight sold up to \$150. Clover seed quiet and lower; 1899 prime, \$6.60; March, \$7. tion as leader of the Board of Trade business was smaller, it was sufficiently heavy to draw attention from all over the ficor. The crowd, encouraged by lighter country offerings, small contract stocks, and above all, by the stubbornness with which the price had yielded in the face ot immense sales by longs, was optimistic and absorbed all offerings on the cheerful confidence that the high price of the crop Lad not yet been reached. May opened 1/3c lower to 1/2 nigher at 401/2c to 401/2c. Liquidation was still in progress, but offerings were taken readily and the price soon touched 40%c. Here the selling pressure tecame heavier and May reacted to 40%c. At this price the market steadied and for a considerable period it was a game of give and take between 40%c and 40%c, with longs on one side and commission houses and the local crowd on the other. The close found the market strong. May only a shade lower quality was generally common. The demand was at 40%@40%c. Receipts were 529 cars, one

tor foreign shipment. The early steadiness of wheat, and especially its closing strength, were rather mysterious to students who look to crop reports and statistics for reasons with which to account for the market's actions. A deal involving over 25,000 bu was amply sufficient to cause comment. May opened for the regular sale of Warman, Black, Chamberlain & Co., against an equal number a week ago and 250 a year ago. There was an element among the professional operators on the Stock Exchange which worked for a rally, yesterday, on the theory that Monday's selling was largely due to operations for the bear account, and | On the 31st day of December, 1900 that vigorous support of the market would drive these bears to cover. The maneuver was entirely without success, especially in the early dealings, but all of the market's' strength was confined to a very few stocks and was not long maintained. Business fell away to the point of semi-stagnation at times during the day, showing no signs of the recent large general demand or of the operations by large banking and financial interests, which were the backbone of the market for a long time. Expectation continues on tiptoe of an official announcement of the terms of the steel merger, which are almost hourly expected, and yet it is evident that the cumbersome project may drag for a long time. The steel stocks were all feverish and unsettled, but generally weakened during the course of the day. The money market was not violently disturbed, but the tone continued to harden. A check for over \$23,000,000 on account of the New Jersey Central Railroad purchase went through the clearing house and was a reminder of the continuing influence on the money market of the recent deals. The decision to close the Stock Exchange from Thursday afternoon until Monday mornmedium and fine, 13@14c; scoured, 42@43c; sta-ple, 45@46c; No. 2 medium, 15@16c; scoured, 40@ 42c. Australian, scoured basis, spot prices— Combing superfine nominal at 70@73c; good, 65@ ing was an influence toward dullness. The coalers were especially weak. Delaware & Hudson was erratic, breaking violently 51/4 from the top, and closing with a net loss of 2½. The Southwesterns were all notably weak, declining from 1 to 2¾, and there were severe losses in Great Northern preferred, General Electric and the Smelting stocks, besides those in the Steel stocks. There was an upward turn in Sugar, but it did not hold. Comparative firmness was shown by Union Pacific, Illinois Central and, for a time, St. Paul, though that stock

gave way at the last. There was large buying again in Southern Pacific bonds, but they lost most of their gain before the close and the general bond list was reactionary. Total sales, at par value, were \$4.685,000. United States bonds were all unchanged on the last call. Following are the day's share sales and the closing bid prices:

VALUES TENDED LOWER Drunkenness. COKE!

The man who has allowed the demon of intemperance to dominate his actions is so firmly bound by the chains of habit that tears and arguments are of little avail. It is useless to attempt to reform a drunkard by appeals to his conscience or his morality. His appetite is the source of his trouble, and should be the point of

attack.

It is because of the recognition of this principle that the Keeley Institute, located at Plainfield, Ind., has had such great success in the cure of chronic alcoholism. The drunkard has to stop whether he wants to or not. The treatment not only cures the craving, but builds up the wasted tissues until the one-time slave is emancipated. Write for information to Plainfield. Ind., or 105 Commercial Club building, Indianapolis, Ind. Telephone 2427.

Plainfield is fourteen miles west of Indianapolis on the Vandalia Railway.

LOCAL GRAIN AND PRODUCE. Trade Improving with Fine Weather

-Prices Unusually Steady. So slight are the variations in prices from day to day that to speak of the market as being unusually steady is correct to the letter. In staple groceries nearly every article carries a firm tone, but efforts to advance values do not materialize. Canned goods and dried fruits carry a firmer tone, and advances have been expected, but as yet none has become effective. The seed market is active and prices are firm at Monday's revision. Oranges are much firmer and an advance is probable. Lemons are in much stronger posi-tion. Eggs rule weak at quotations. Poultry is taking on a firmer tone. The movement of provisions averages well with that of February of last year. Flour is quiet at unchanged prices. Hides are slow, with prices steady. There are no new features in other lines. The local grain market continues sluggish on

light receipts, which are disappointing when prices are considered.
